

SAP is a world leader in business solutions Become SAP Certified and Accelerate your career Join SAP Courses @ SiERP

Sydney Institute of ERP (SiERP), an SAP Education Partner, offers Solution Consultant Certification in SAP Supply Chain Management - Planning & Manufacturing. This course provides the necessary SAP skills and knowledge in Planning & Manufacturing giving you a powerful competitive advantage in the SAP ecosystem.

Supply Chain Management - Planning & Manufacturing

Today, manufacturing companies across the world depend on SAP ERP to provide the solutions required for better planning and production management.

The Production Planning module is a key component of the SAP ERP software that automates all the planning processes in the supply chain. SAP customers seek SAP Certified Production Planning Consultants with relevant skill sets and expertise.

SAP uAcademy's SCM Planning & Manufacturing module equips you with knowledge on how to automate, plan and manage manufacturing processes.

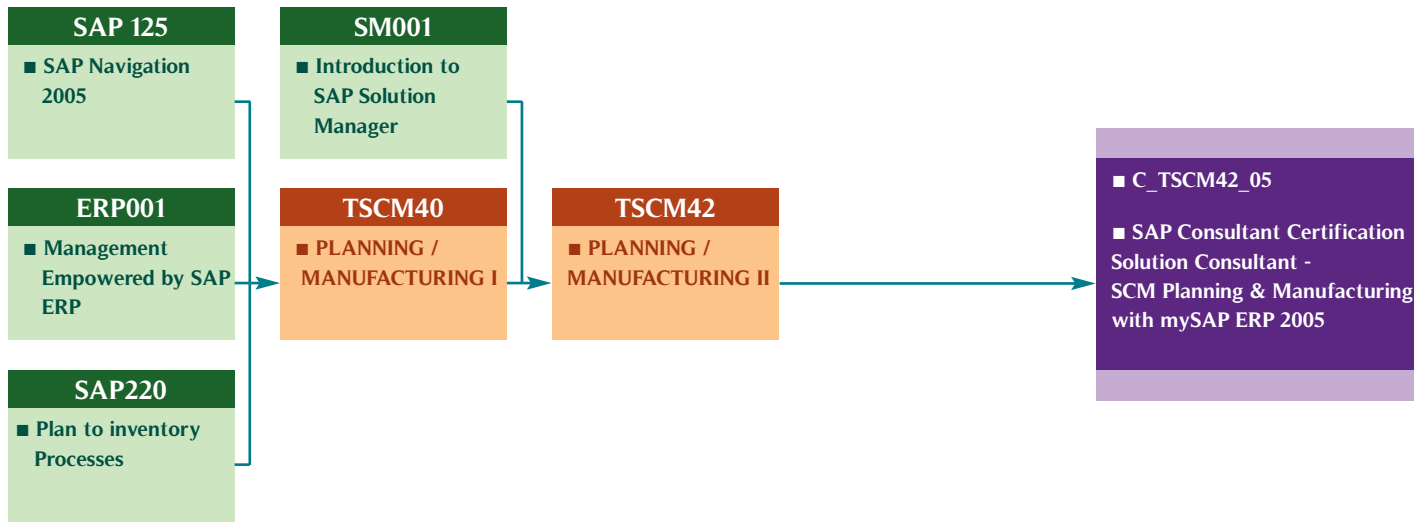

Why SCM Planning & Manufacturing Certification?

Through the successful completion of ERP SCM Planning & Manufacturing certification, you will become a more valued asset to your employer by learning how to utilise the tools and techniques to:

- Configure and implement SAP master data in the area of planning and manufacturing (including transfer to SAP APO)
- Configure and implement the basic functions of production order processing and repetitive manufacturing
- Consider capacity planning options in manufacturing
- Map enterprise structures, master data and business processes for an enterprise in the SAP system, and make the required system configurations
